

It's back to school time...

It's time for our valued members to confirm the student status of their dependent children aged 21 – 25 years old. Student status is defined as being a full-time student duly registered in a post-secondary educational institution.

*If your child is **NOT** going back to school, please advise us as this could impact your coverage status.*

What's required to be covered?

To ensure your dependent child is covered you must acquire an official document from their post-secondary institution (on their letterhead) that clearly states your child's name, that they are a full-time student and the time frame (i.e. 2020-2021) in which they are enrolled. If you'd like to see a sample letter for reference, please visit www.youngstenstar.ca/enrollment.

How do I submit my proof of enrollment?

It's simple, all you need to do is complete the online form at www.youngstenstar.ca/enrollment with your information and attach a proof of enrollment letter. Doing this will ensure your dependent child has benefit coverage for their academic year.

As always, we sincerely appreciate your understanding and cooperation. If you have any questions, please do not hesitate to contact Loretta or Adrienne at info@youngstenstar.ca.

Kindest regards,
Yongs-Ten Star Group Benefits Team
